## Notes about load limits where shown

**SWL or WLL = Safe working load limit (kg) :** This is the maximum weight the product should carry.

**BL = Break load :** This is the maximum weight to break for the product and will vary from batch to batch. You should only use the product at the WLL or 1/4 the break load.

The above are guides for sizing of products and not a recommendation.

Do not use any product for lifting unless drawing is marked suitable for lifting - with this symbol

**STEEL  
GEAR**
