SPECIFICATION :

LONG LINK GALVANISED CHAIN TO DIN763

This type of chain is not calibrated and is cheaper than short link chain, it can be used as mooring chain, but is not recommended for anchors requiring a windlass as it is not calibrated to size.

Our chain is made to DIN763, from Grade 3 Steel with a hot dipped galvanised coating. Strong and rust resistant. We also provide a stainless anchor chain. This is shown in a separate Datasheet
