SCREW EYE

Stainless steel screw eye in 4 sizes. These marine grade stainless hooks are designed for screwing into wood. They can be used in applications where they hold a line between 2 or 3 of them. The larger ones can be used to suspend rope whilst the smaller ones can be used for hanging items suspended from a wire. Drill a pilot hole then manually screw them into the hole. Finish off with pliers if required. Suitable for coastal or boat use, or in the garden, where they will not rust.
