Notes : Dimensions are a guide and may vary slightly. Pls check with us for dimension critical applications.
 If Break (BL), Safe working load (SWL) or Working load limit (WLL) are shown:
 This is a guide only. (Do not use for lifting unless it is a certified lifting product)

TABLE HINGE

The table hinge is a durable and corrosion-resistant hinge made from A4 grade stainless steel, which is known for its high resistance to rust and corrosion, particularly in marine and outdoor environments. This type of hinge is commonly used for tables due to its strength and ability to withstand heavy loads and frequent use. The hinge typically features smooth pivot points for easy opening and closing, and it is designed to provide stable and reliable support for folding or extending table surfaces.

MATERIAL TYPE	A4 STAINLESS
FINISH	POLISHED

ADVANTAGES

- Strong & durable
- Smooth pivot points
- A4 Stainless steel
