If Break (BL), Safe working load (SWL) or Working load limit (WLL) are shown:
This is a guide only. (Do not use for lifting unless it is a certified lifting product)

Hi-Viz PVC Coated Galvanised Breakaway Cable

Yellow PVC breakaway cable suitable for braked trailers and caravans. On accidental disconnection of the caravan from the car, the function of the breakaway cable is to apply the caravan brakes and then release. It is a legal requirement that a breakaway cable is fitted and properly attached. This style of cable has a clevis jaw that is fitted to the trailer. You can also use these cables as a type of lanyard that can be used as a secondary safety feature if a part comes away from its mounting.

MATERIAL TYPE
GALVANISED

ADVANTAGES

- Good for various applications
- Highly durable
