

COPPER / NICKEL FERRULES

Code (Copper)	Code (Nickel)	Size Code	Wire size (non-fibre core wire)	L	A	B	S
SKU0832	N/A	2	1.5	7	2.4	4.8	0.85
SKU0835	SKU0835-N	2.5	2	9	2.7	5.4	1
SKU0837	SKU0837-N	3.5	3	13	3.8	7.6	1.5
SKU0839	SKU0839-N	4.5	4	16	4.9	9.8	1.9
SKU0841	SKU0841-N	5.5	5	21	6.6	13.2	2.5
SKU0843	SKU0843-N	6.5	6	23	7.2	14.4	2.7

Wire rope ferrules

These items are used to hold wire rope loops. A hand tool or Hydraulic press is used to compress the oval shaped ferrule around 2 lots of wire rope. The resulting compressed ferrule binds the 2 pieces of wire rope together. The nickel plated variety gives a colour that matches the stainless wire. These are more expensive but more aesthetically pleasing.

MATERIAL TYPE	COPPER, COPPER NICKEL PLATED
FINISH	SMOOTH
NOTES	DO NOT USE ALUMINIUM FERRULES ON STAINLESS WIRE. THEY CORRODE.

ADVANTAGES

- Easy compressibility
- Can be fitted in situ using a “hand press tool”
- Can be used in harsh environments, such as marine
