

Duplex stainless chain - DIN766

Size	Weight/M (Kg)	A	B	C	BL (KN)	Std
3	0.8	6	19	8	25	DIN766
4	1.4	8	24	10	46	DIN766
5	1.4	8	24	10	46	DIN766
6	2.2	10	28	14	72	DIN766

Notes : Dimensions are a guide and may vary slightly. Pls check with us for dimension critical applications.

If Break (BL), Safe working load (SWL) or Working load limit (WLL) are shown:
This is a guide only. (Do not use for lifting unless it is a certified lifting product)

DUPLEX ANCHOR CHAIN

The Duplex anchor chain is manufactured using duplex steel which has a high corrosion resistance and a higher strength than A4 stainless steel. This is commonly used as anchor chain in warm water climates, where standard stainless will brown. Also suitable for high chlorine environments.

Material notes :

- **Duplex Stainless**
Higher corrosion resistance than 316 marine grade.
Higher strength than 316 marine grade
