HANDLE FOUR HOLE

A2 stainless steel four-hole handles are robust and versatile hardware components designed for various applications where secure gripping and lifting are essential. Constructed from high-quality A2 stainless steel (304 grade), these handles offer excellent corrosion resistance, making them suitable for both indoor and outdoor use. Each handle is equipped with four evenly spaced holes, allowing for secure attachment to a wide range of surfaces or objects using bolts, screws, or other fasteners. The ergonomic design ensures comfortable grip and efficient handling, whether used in machinery, furniture, cabinets, or other industrial or household applications. We offer them in two sizes; medium and large.

MATERIAL TYPE	A2 STAINLESS
FINISH	POLISHED

ADVANTAGES

- Good for various applications
- Highly durable
- Easy installation
