HANDLE TWO HOLE

These A2 stainless steel two-hole handles are versatile and sturdy components designed for various gripping and lifting applications in industrial and commercial settings. Constructed from high-quality A2 stainless steel (304 grade), these handles are renowned for their excellent corrosion resistance, making them suitable for both indoor and outdoor use where exposure to moisture or harsh environments is common. Each handle features two evenly spaced holes, allowing for secure attachment using bolts, screws, or other fasteners. These handles provide ergonomic comfort and reliable performance. They are ideal for use in machinery, equipment, cabinets, doors, and furniture, providing a secure grip and facilitating efficient lifting and manoeuvrability. We offer them in 3 sizes: 65mm, 80mm, 100mm.

MATERIAL TYPE	A2 STAINLESS
FINISH	POLISHED

ADVANTAGES

- Good for various applications
- Highly durable
