 If Break (BL), Safe working load (SWL) or Working load limit (WLL) are shown:
 This is a guide only. (Do not use for lifting unless it is a certified lifting product)

OFFSET HINGE

A4 stainless steel offset hinge is a durable hardware component designed for secure and efficient operation in various applications. Crafted from high-quality A4 stainless steel (316 grade), known for its excellent corrosion resistance and durability, this hinge features an offset design that allows doors or panels to swing clear of the frame. Ideal for use in marine, industrial, and architectural settings, it ensures smooth and reliable movement while providing robust performance in environments where strength and corrosion resistance are essential.

MATERIAL TYPE	A4 STAINLESS
FINISH	POLISHED

ADVANTAGES

- Corrosion resistant
- Highly durable
- Easily assembled
