ZINC PLATED DEE SHACKLE WITH COUNTERSUNK PIN

This is the same type as the standard Zinc plated Dee Shackle but has a flush countersunk pin, which some people prefer for its appearance.

This product comes in sizes 6-12mm.

Made from Steel that is electro galvanised, commonly known as Zinc plated.

We also stock other types of Bow and Dee Shackles, including load rated, in stainless steel

The Zinc plated variety is much cheaper than the stainless type, but will not offer the same degree of rust protection as Stainless.

MATERIAL TYPE	ZINC PLATED
---------------	-------------

ADVANTAGES

- Galvanised - prevents premature rust and corrosion
- Good for use with many applications
- Highly durable
