swaging

Notes about load limits where shown

SWL or WLL = Safe working load limit (kg) : This is the maximum weight the product should carry.

BL = Break load : This is the maximum weight to break for the product and will vary from batch to batch. You should only use the product at the WLL or 1/4 the break load.

The above are guides for sizing of products and not a recommendation.

Do not use any product for lifting unless drawing is marked suitable for lifting - with this symbol 

NB. This drawing and its dimensions to be used as a guide. For dimension critical applications please ask
